Presenting...
ARCH MADNESS!!

Every year during the month of March we offer **15%** off of Footlevelers, Orthotics. **Why?** Because your whole body needs proper support from the ground up. It's a chain reaction. If you have flat feet, uneven shoe wear, internal rotation, etc., these things may cause an imbalance in the rest of your body.

Our Foot Levelers scanner provides a digital illustration of your feet and your skeletal structure. Based on your scans, we can order flexible custom-made orthotics that are designed specifically for your spinal stabilization.

Sadly, March 16th will be Christy's last day with us at LCCC. She will truly be missed by all and will always be part of the family. We wish her the best of luck in her future endeavors. Make sure you stop in to see her!
